## CALL FOR PAPERS

## CONFERENCE ON

SMART INDUSTRIES AND DIGITAL  
ECOSYSTEMS (SIDE)

SIDE

## Scope

The Smart Industries and Digital Ecosystems conference aims to bring together leading academic scientists, researchers and research scholars and companies to exchange and share their experiences and research results on all aspects of Smart Production Ecosystem. It also provides a premier interdisciplinary platform for researchers, practitioners and business leaders to present and discuss the latest innovations, trends, issues, practical challenges and solutions in the field of Smart Production Ecosystems.

In recent years, the growing and intense development of information technology in the manufacturing industry has led to significant changes in the methods and tools that support the factories of the future. The hot topics around Industry 4.0, Industry 5.0 and Smart Manufacturing aim at the digital and organizational transformation of traditional factories and industrial systems as well as various other sectors. This SIDE conference provides the perfect setting and a unique opportunity for knowledge sharing, review and discussion of theoretical advances, research results and industrial experiences among academics, researchers, policy makers, practitioners and students.

## ABOUT LOCATION

Opatija is the leading seaside resort of the Eastern Adriatic and one of the most famous tourist destinations on the Mediterranean. With its aristocratic architecture and style, Opatija has been attracting artists, kings, politicians, scientists, sportsmen, as well as business people, bankers and managers for more than 170 years.

The tourist offer in Opatija includes a vast number of hotels, excellent restaurants, entertainment venues, art festivals, superb modern and classical music concerts, beaches and swimming pools – this city satisfies all wishes and demands.

Opatija, the Queen of the Adriatic, is also one of the most prominent congress cities in the Mediterranean, particularly important for its ICT conventions, one of which is MIPRO, which has been held in Opatija since 1979, and has attracted more than a thousand participants from over forty countries. These conventions promote Opatija as one of the most desirable technological, business, educational and scientific centers in South-eastern Europe and the European Union in general.
