### CALL FOR PAPERS

### CONFERENCE ON

# ENGINEERING EDUCATION (EE)

### SCOPE

In today's world industry is often complaining that engineering education is not well aligned with their needs, governments are complaining that the motivation for studying STEM is low, society is complaining about too few women in engineering, students are complaining that their education is not modern enough, not practical enough and not interesting enough, and professors are complaining that freshmen enter universities with ever lower competences and motivation for learning. Still, everyone has huge expectations of e-learning.

"Engineering education" invites all researchers and practitioners to share their activities, efforts, results and insights related to education of engineers.

In particular the following topics are highly encouraged:

- Educational Tools
- Educational Methods
- Development of Curriculum
- Use of Multimedia, Simulations, (Self)Assessment
- Virtual Learning Environments
- Internships

Not only research papers, but also case studies, course syllabi with evaluation, and overviews are acceptable.

Official languages are English and Croatian.

**Accepted and presented papers in English will be submitted for inclusion in the IEEE Xplore Digital Library.**

*Please forward to your colleagues*

**Submit your paper for the conference EE which will be held at the 43<sup>rd</sup> International ICT Convention MIPRO 2020.**

## ABOUT LOCATION

Opatija, with its 170-year-old tourism tradition, is the leading seaside resort of the Eastern Adriatic and one of the most famous tourist destinations on the Mediterranean. With its aristocratic architecture and style, Opatija has been attracting artists, kings, politicians, scientists, sportsmen, as well as business people, bankers and managers for more than 170 years.

The tourist offer in Opatija includes a vast number of hotels, excellent restaurants, entertainment venues, art festivals, superb modern and classical music concerts, beaches and swimming pools – this city satisfies all wishes and demands.

Opatija, the Queen of the Adriatic, is also one of the most prominent congress cities in the Mediterranean, particularly important for its ICT conventions, one of which is MIPRO, which has been held in Opatija since 1979, and has attracted more than a thousand participants from over forty countries. These conventions promote Opatija as one of the most desirable technological, business, educational and scientific centers in South-eastern Europe and the European Union in general.
